

THE TOLTEC SYSTEM OF KNOWLEDGE

AN INTRODUCTION BY ADRIAN MARSH

ON BEHALF OF THE FOUNDATION FOR TOLTEC RESEARCH

DEFINITION

TOLTEC

means ...

A MAN OR WOMAN OF KNOWLEDGE

- Independent of race, gender, religion, country, language, or any other differentiating factors within humanity.
- Knowledge handed down from one generation to another over Aeons of time through oral and experiential training.
- Knowledge is NOT information, but rather - Experiential Knowledge of the Self.
- The Toltec System of Knowledge is a Practical Exploration of the Great Spiritual and Physical Universes, and as such is a Facet of the Diamond of the One Life.

THE TOLTEC LEGACY

AS EXPRESSED BY
THÉUN MARES

TOLTEC IS NOT ...

- Google - A race of people that existed in modern Mexico in the classic and post-classic periods of meso-American chronology between ~ 600-1200 A.D.
- The Toltec Path of Freedom is NOT related to:
 - Toltecquity
 - Nagualism
 - Shamanism
 - Other meso-American traditions

ORIGINS ...

- 
- The Toltecs arrived on this planet ~18M years ago.
 - Immersed into form or the physical world (10th level of creation/manifestation) from a world of finer vibration.
 - Alongside then what was primitive animal man – Hominids.
 - Toltecs purpose – to explore/discover/reveal life's fundamental system of knowledge on the physical plane – to express the true “Spirit of Man”.
 - To hold this knowledge in trust across the ages for humanity until such time as humanity had sufficiently come of age ...

ORIGINS - ATLANTIS

- By ~1M years ago the Toltecs had developed the civilisation of Atlantis.
- Atlantis was overseen by the Toltec seers and was an advanced civilisation beyond our current comprehension.
- The “technology” of awareness was applied widely including in power and energy production.
- Destroyed multiple times through imbalance of forces in awareness from the fundamental battle between the light and dark seers.
- Atlantis finally sank beneath the Atlantic ocean ~25k years B.C.E.
- The legacy of this battle continues to this day ...

**How can any of this be verified as accurate,
or even existed at all ?**

- Only through listening to your own feelings ... when something “rings true”.
- Feelings are irrational or direct knowledge e.g. intuition, insight, inspiration ...
- Knowledge is personal to each of us, and we must each unfold our knowledge in our own way, on our own journey.
- Feelings and Emotions are not the same thing at all!
- Emotions are a product of the act of perception and generate the desire to act ...

THE POWER OF WORDS

- Life is a feeling to be experienced ...
- Then we are forced to share our experiences in words to communicate with one another ...
- Words never convey the true feeling or meaning of an experience, only a shadow at best ...
- The common meaning of words in the modern era has lost much of the true vibration of the word's meaning.
e.g. En-joy, Dis-ease, Re-treat, Under-stand
- Our perception becomes fixed in one position by the words we use.
- One point of view - one view of the world! ...
- With a fixed view of the world how can we learn anything new! ...
- How we use words requires great care and attention ...

POST-ATLANTIS ...

- The Atlanteans formed one of the seven sub-races of mankind, with each sub-race embodying a unique and specific vibration of the One Life.
- The Toltec seers lead what remains of the inhabitants of Atlantis across the globe before its final destruction.
- The Toltec lineages and system of knowledge are persisted from one generation to the next by a strictly oral and experiential training.
- The Cry of the Eagle sounds in 1995 as humanity comes of age.
- The Lineages are no more and humanity is responsible for its knowledge moving forward ...

OTZ CHIIM

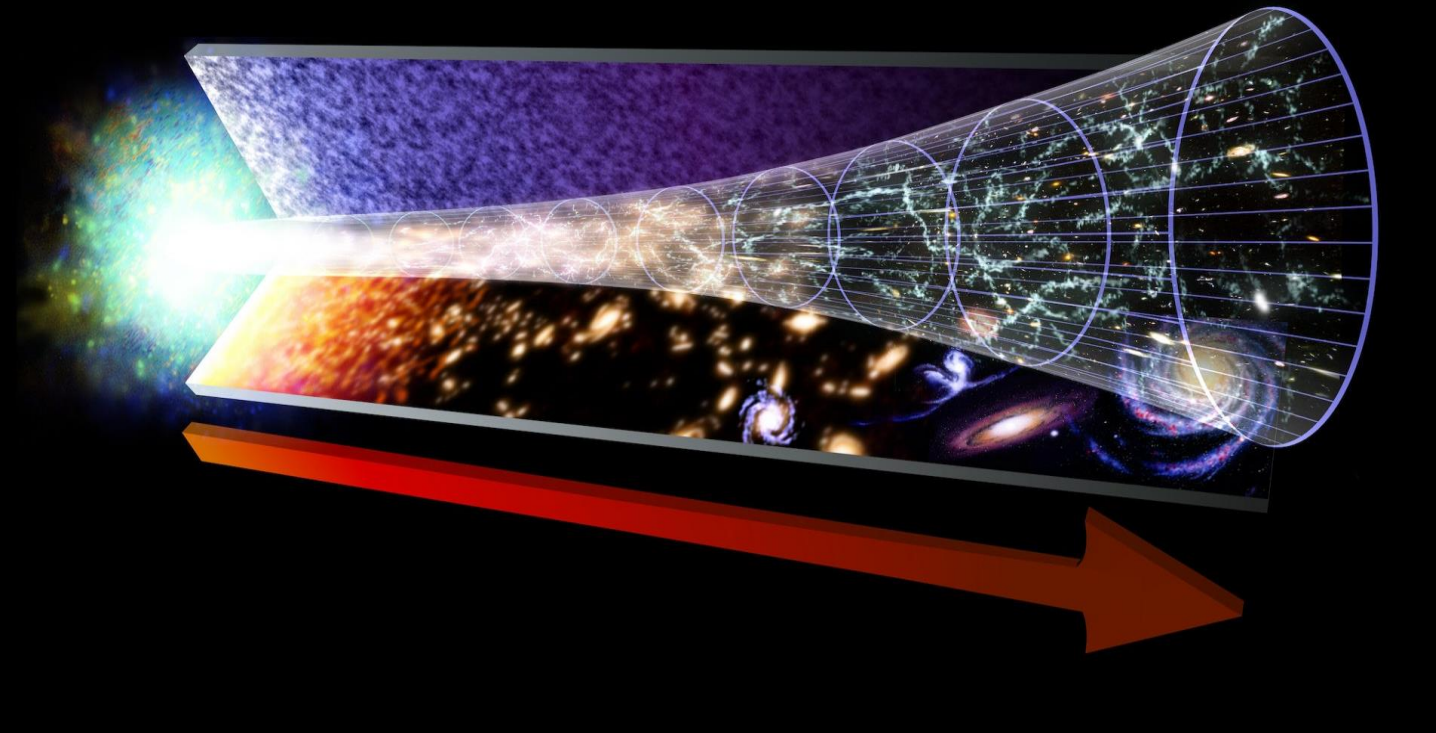

- Otz Chiim or Living Tree - “Tree of Life” representing esoterically the vibrational 10 levels/worlds of The Great Manifestation.
- Discovered aeons of time ago as the Toltecs explored The Great Mystery of the manifested universes, and central to Toltec cosmology.
- Central to the Qabbalah as defined by the Secret Doctrine in the common era.
- The very bottom/last 10th world is the dense physical world of form.
- All others levels/worlds exist at different layers of vibration, and together known as The One Life.
- The inter-connections form the unique jewels of awareness or qualities from which all experiential knowledge is formed.
- In the New Science this is known as the Aetheric Spectrum of which the electro-magnetic spectrum is a part within the 10th world or form.

THE NAGAL - SPIRIT

- Source of the Great Manifestation known as the Nagal pronounced *na-hal* or the Spirit ...
- The Spirit is for all intents and purposes the Unknowable!
- The One Life extends from the purpose of the Spirit ...
- The Purpose of the Spirit is to Learn about itself ...
- In order to learn the spirit must separate itself ...
- Principle of Separation – To Discriminate Between ...
- Brings about Intelligence – To Choose Between (Discern) ...
- Discernment generates Awareness of Self.
- Intelligence and Awareness are together the dual expression of Consciousness.
- The One Life or the Great Mystery consists of both the vast Unknown and the Known.

EVOLUTION OF AWARENESS

- A new living Being originates from a Spark of the Spirit ...
- The Purpose of each Being is that of the Spirit – to learn about itself ...
- A Being progresses through the different organic kingdoms:
 - The Plant Kingdom ...
 - The Animal Kingdom ...
 - The Band of Man ...
- The Spirit of Man (males and females) is the true microcosm of the macrocosm.

THE PROGRESSION THROUGH THE AEONS OF TIME OF ALL BEINGS THAT COMPRISE THE ONE LIFE
THE EVOLUTION OF AWARENESS

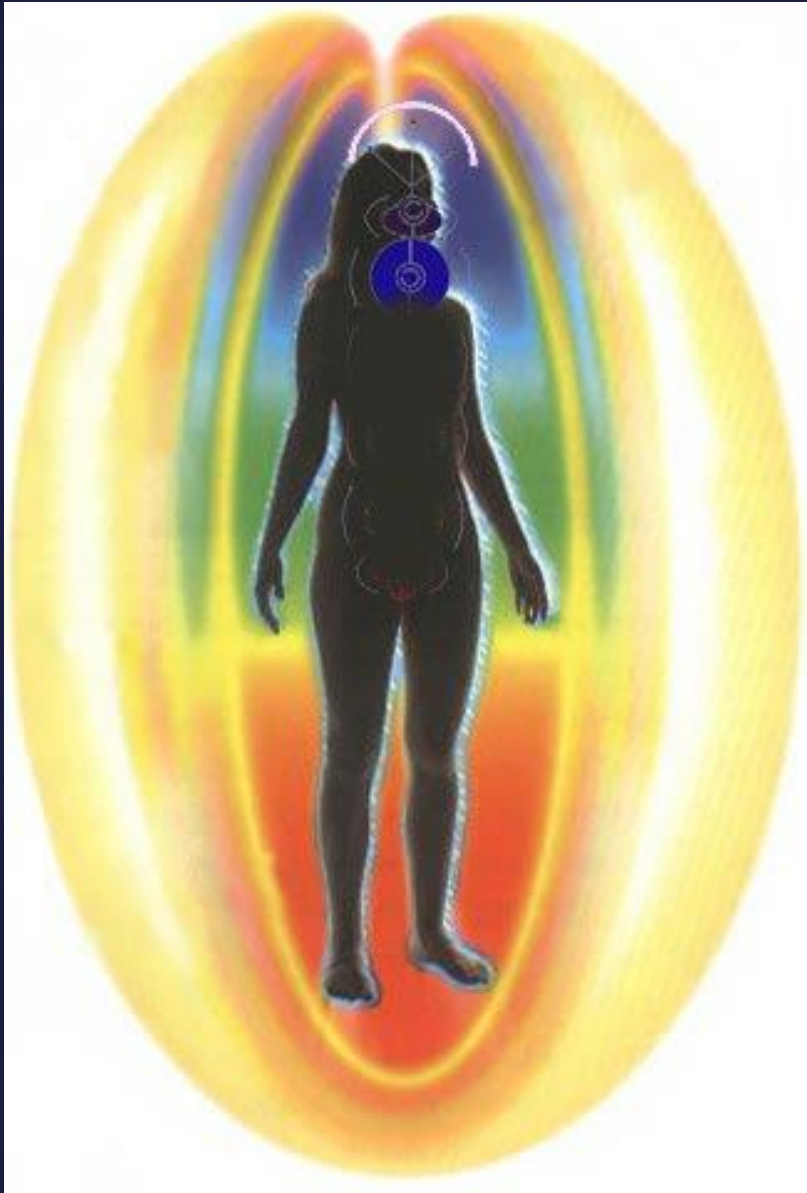

The Big Bang as science knows it is the Great Manifestation emerging from the 9th
World into Physical Form of the 10th World.

FORCE OF INTENT

- There is only One Force within the One Life
The Force of Intent.
- Studied and explored over Aeons by the Toltecs,
and present in all worlds, levels, and forms of life.
- Anything can be created or destroyed with the
force of intent!
- The purpose of man includes learning how to
direct and unfold the force of intent.
- In the physical world (10th) the force of intent
appears separated into the various forces known
to science - based on the common perception of
reality.
- In man, Intent is the ability to place and maintain
the focus on what is most important.

THE TONAL – I AM THIS ...

- The Tonal is the Duality created by the Nagal (Spirit) when it separates itself in order to learn.
- The Great Manifestation is at all levels The Tonal, with the Nagal or Spirit within.
- The Nagal and Tonal duality are self-similar and self-repeating at all worlds/levels of existence.
- In man the Tonal consists of what is known as the Luminous Cocoon (Aetheric Body), consisting of:
 - The Mental sphere ...
 - The Emotional sphere ...
 - The Physical sphere Everything experienced as I Am This or That ...
- Our Perception of the One Life is assembled through a focus of intent known as The Assemblage Point ...

THE ACT OF PERCEPTION

- The Great Manifestation consists of a myriad of energetic fibres from all ten worlds, and known as The Web of Life (One Life).
- Our ability to perceive anything in the web of life is based on the position of our assemblage point.
- The assemblage point is located between the shoulder blades, and aligns luminous fibres from outside to fibres inside our cocoon.
- Our entire Perception of Reality is formed from the alignment of fibres by the assemblage point.
- Power is the product of Perception!
- As we increase our knowledge and hence available Personal Power the assemblage point can move.
- We are all born into the common perception which represents a small region of the assemblage point.
- The Destiny of Man ... Totality of the Self ... all knowledge possible to experience as man.

THE DREAMER AND THE DREAMED

- The Dreamer (awareness of nagal) is often referred to as the Higher Self, Trueself, Soul, Spirit-guide, Guardian-angel, In-dwelling being, Authentic-self, or simply the Self, ...
- The Dreamed (tonal) or the little-self is the luminous cocoon or our vehicle in physical manifestation ...
- At Birth the dreamer in-carnates one side of its awareness into a new luminous cocoon.
- The dreamer is the Intelligent being (driver) that is within the dreamed (vehicle).
- Each dreamer has been Evolving over aeons and aeons of time from a new spark of the spirit.
- The Connection between the dreamer and the dreamed is by Feeling through the Heart Centre.
- At Death when our Script is complete the dreamer withdraws its intent and the luminous cocoon unravels.
- Our Knowledge and Awareness are persisted in the dreamer from one life to the next, on the journey towards Totality of the Self.

INTELLIGENT CO-OPERATION

- The Dreamer Guides the dreamed through feelings into the learning experiences needed to fulfil the script.
- The Dreamed must learn to intelligently cooperate with the dreamer, and to Take Action on the guidance.
- The purpose of intelligent co-operation is to ultimately reunite the dreamer and dreamed as One whole.
- We learn how to intelligently co-operate with the dreamer through our Relationships in the physical world.
- The purpose of a Relation-Ship is a journey undertaken by two or more beings in order to learn.
- Co-operation becomes Intelligent when all concerned Win (learn) – an Inclusive and Life-Supportive approach.

IF THE DREAMED IS IN-CARNATED IN MALE AWARENESS
THEN THE DREAMER IS THE INNER HIDDEN FEMALE SIDE
OF OUR AWARENESS

AND VICE-VERSA

THE MYSTERY OF GENDER

- The Dreamer is a Hermaphroditic Being with Male and Female awareness.
- Male awareness Creates/Destroys, is the Active Positive polarity, Outer, Provides a Lead.
- Female awareness Conceives, is the Passive Negative polarity, Inner, Takes a lead.
- The female has a dual nature which includes Mothers awareness which Nurtures and Sustains.
- A Man (potential for Masculinity) is incarnated with an outer male awareness (dreamed) and inner female/mothers awareness (dreamer).
- A Woman (potential for Femininity) is incarnated with an outer female/mothers awareness and inner male awareness.
- Generally incarnated gender reverses each lifetime.
- The Purpose of the Mystery of Gender is to learn to Intelligently Co-operate with all aspects of our awareness, and in so doing contribute to The Evolution of Awareness.

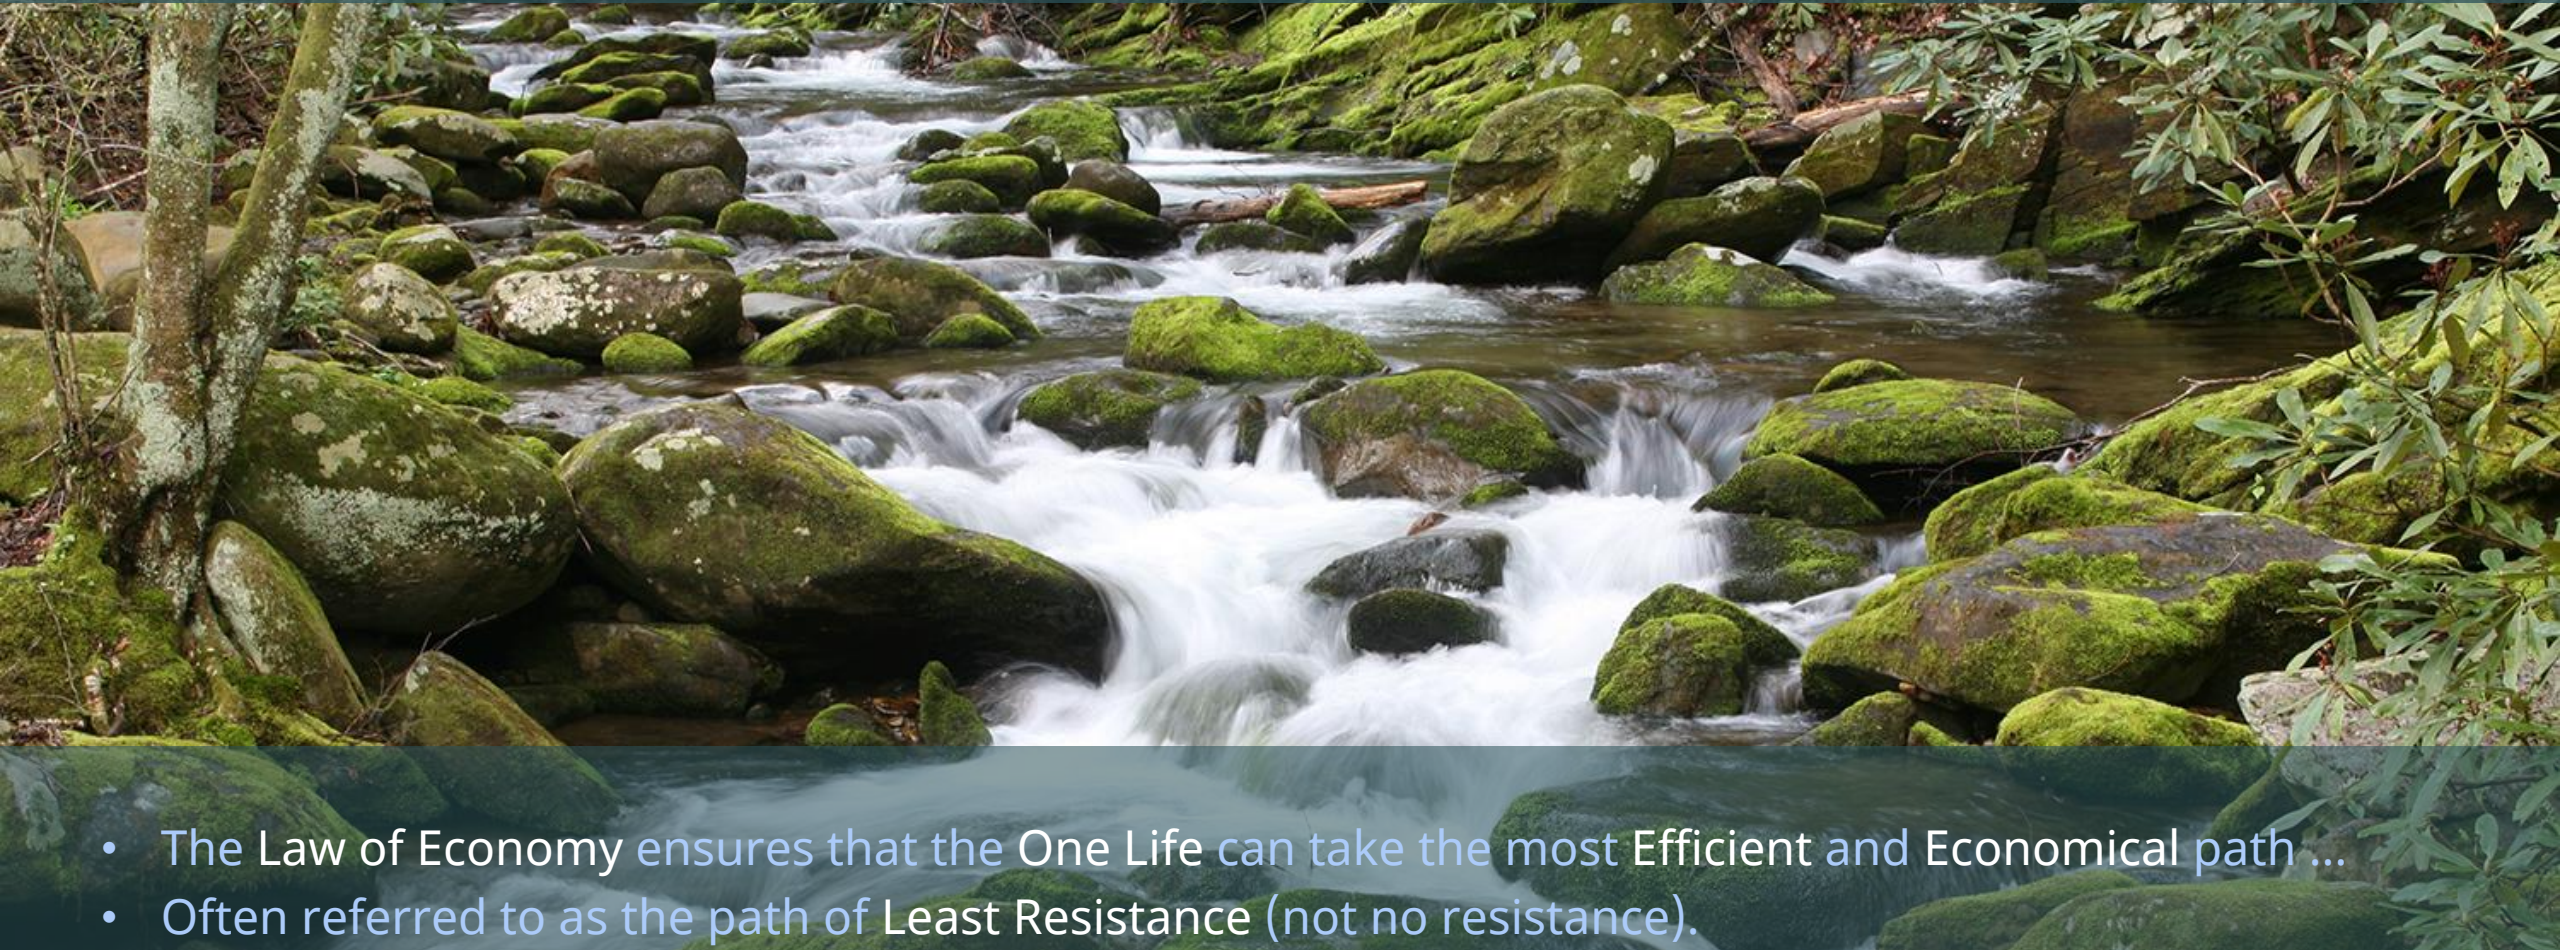

THE LAW OF LIGHT AND REFLECTION

- The Act of Perception joins the fibres of the web of life to those inner fibres within our luminous cocoon.
- This means that whatever we perceive outside of ourselves we actually have inside of us ...
- The law of light and reflection ensures that what we see in the mirror of perception is an accurate reflection of how we really are, and the meaning we make of the world ...
- It is our best mechanism to see that which is Hidden within us reflected to the outer world ...

IN THE FINAL ANALYSIS WE ARE THE CREATORS OF OUR OWN REALITY ... IN ALL ITS WONDER OR MISERY !

THE LAW OF ECONOMY

- The Law of Economy ensures that the One Life can take the most Efficient and Economical path ...
- Often referred to as the path of Least Resistance (not no resistance).
- This law brings about Balance of all of things irrespective of whether the time frame is long or short.
- When we resist the natural process of learning in our life, we are attempting to work against this law.
- The One Life is based in Simplicity of principle, and yet great Diversity in all things manifest.

- The One Power is the product of Perception ...
- In the Great Manifestation Power is the product of all of combined experiences or perceptions ...
- Our own Personal Power is that part of Power which is at our command within our awareness ...
- As our perception and awareness expand so our personal power increases.
- Toltecs have discovered that we are in the 4th Great Manifestation, which means the Spirit has Four Fundamental forms of Expression.
- The Flow of Power into manifestation follows the path of Intent into East -> West -> South -> North.
- All Four directions have unique and distinct properties that reflect the great manifestation.
- Science is yet to discover the true nature of the Four Fundamental Dimensions of manifestation (MEST):

MATTER – ENERGY – SPACE – TIME

COSMOLOGY

20. THE TEN DIMENSIONS

- The One Life exists at all levels of vibration, scale and existence ...
- Beings on earth are the children of Atl – Planetary Being – Physical form the Earth ...
- Atl is one of the children of the Solar Being – The Sun – Physical form huge Fusion Reaction ...
- The solar being is one child of the Galaxy Being – Physical form The Milky Way ...
- The Physical Universe is the current extent of the 10th level of manifestation ...
- The 4th Great Manifestation is vast beyond our possible comprehension ...
- The Toltec System of Knowledge represents that which has currently been explored of the Ten Dimensions ...

The Evolution of Awareness Progresses from Aeon to Aeon

The Toltec System of Knowledge

... and ...

The New Science

Conventional Science

The Exploration of Form ...

- Good exploration of the 10th physical world, or the Form side of Life.
- Seeks to answer:
 - What form is made-of ...
 - How form inter-acts ...
 - Application of physical theories, principles, and properties.
- Considered to be “objective” because Perception of the observer is NOT included/considered ...
- E.g. Electromagnetic spectrum.

The New Science

The Quest for Knowledge ...

- An experiential exploration of the Great Manifestation across all of the 10 worlds.
- Seeks to study and reveal the great problems of the Physical and Spiritual Universes.
- The Why, Purpose, and Principles of our spiritual, esoteric, and physical existence.
- Under-stand (support), apply, and resonate with, the principles of the Wheelwork of Nature ...
- E.g. Aetheric spectrum ...

ENERGY FROM FUSION

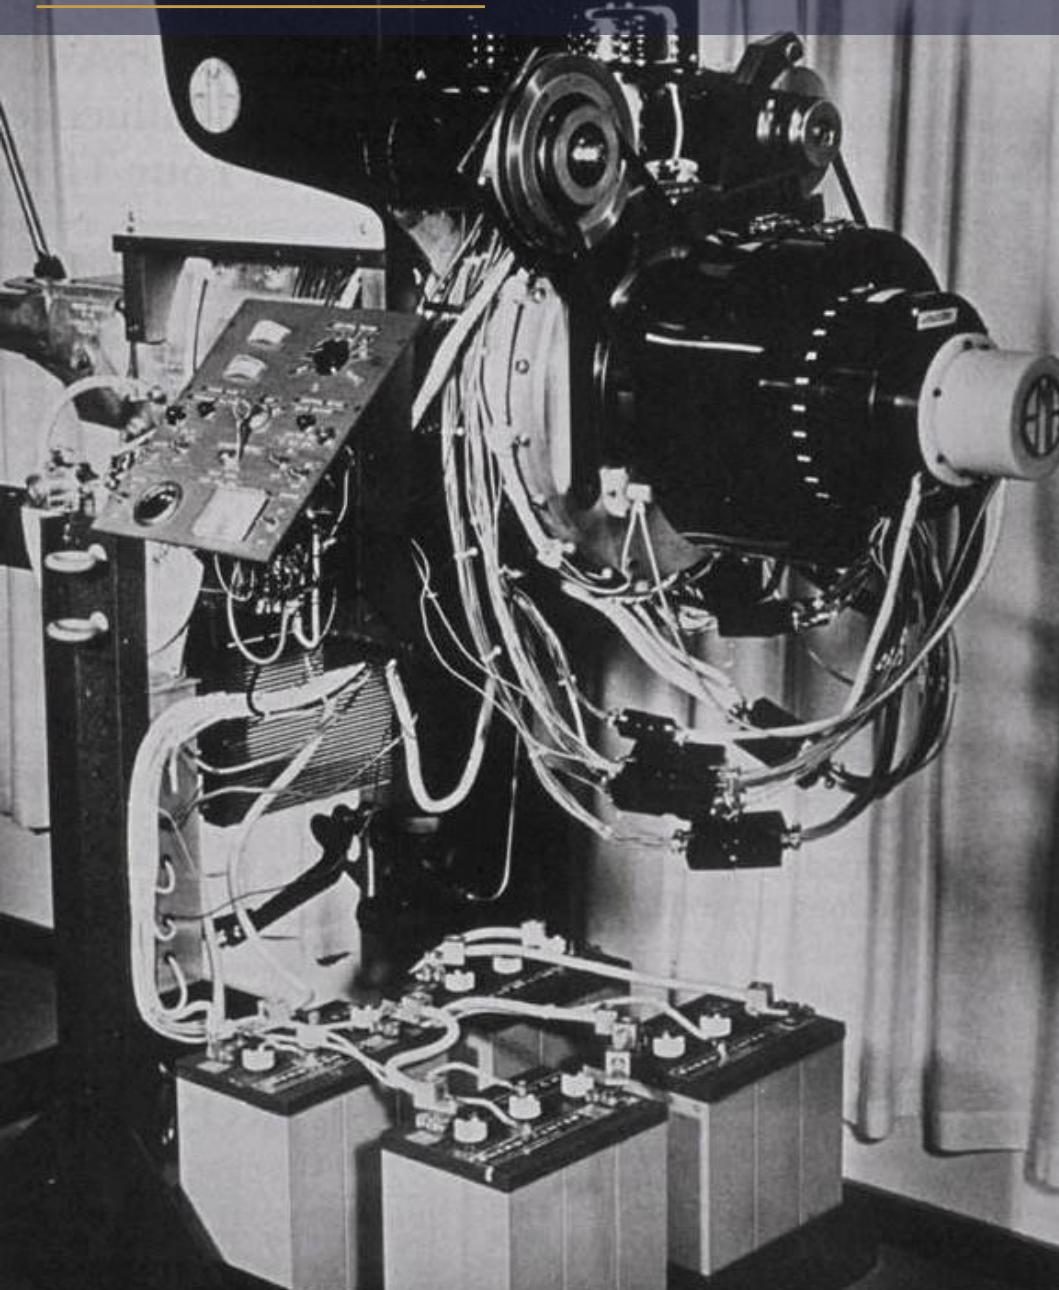

- Conventional science – a reaction in which two or more atomic nuclei are combined to form one.
- Atoms are Forced together by very large magnetic fields, accelerated ions, high-power lasers ...
- The fusion process liberates additional energy.
- Fusion cannot be sustained by Forcing atoms together, and more energy is required to force them together than liberated.

The Toltec System of Knowledge ...

- Fusion is an Inclusive process where separated entities willingly draw together to form One Whole.
- Intelligent cooperation is required between atoms which over time form a life-supportive relationship.
- Inclusive intent grows and deepens this Inter-dependent relationship drawing the atoms closer.
- Energy is liberated through the active process of intelligent cooperation leading to Inspiration.

“FREE” ENERGY

- It is claimed that certain apparatus and processes are able to generate “excess” or “additional” energy above and beyond that supplied to the apparatus.
- This so-called “free energy” from “over-unity” apparatus usually comprises a non-linear transient process.
- This excess energy is often claimed to be extracted from the “aether” based on these non-linear processes.

The Toltec System of Knowledge ...

- There is No Energy in the one life which is For Free!
- Energy is one dimension in the Four-Fold Purpose and arises in the Regenerative Flow of Power coming into and out of Manifestation.
- By attaching an apparatus through Intent to this natural regenerative flow, this apparatus can become in synchronicity with the flow of power, and hence utilise the One Power in manifestation.
- One such example of an apparatus – is Man or Woman.

DISPLACEMENT AND TRANSFERENCE

- The Displacement and Transference of electric power in electrical apparatus is based on the dynamic relationship between the Dielectric and Magnetic fields of Induction.
- Electrical phenomena such as Tesla's "Radiant Energy" are thought to result from underlying Coherent Displacement Processes.

The Toltec System of Knowledge ...

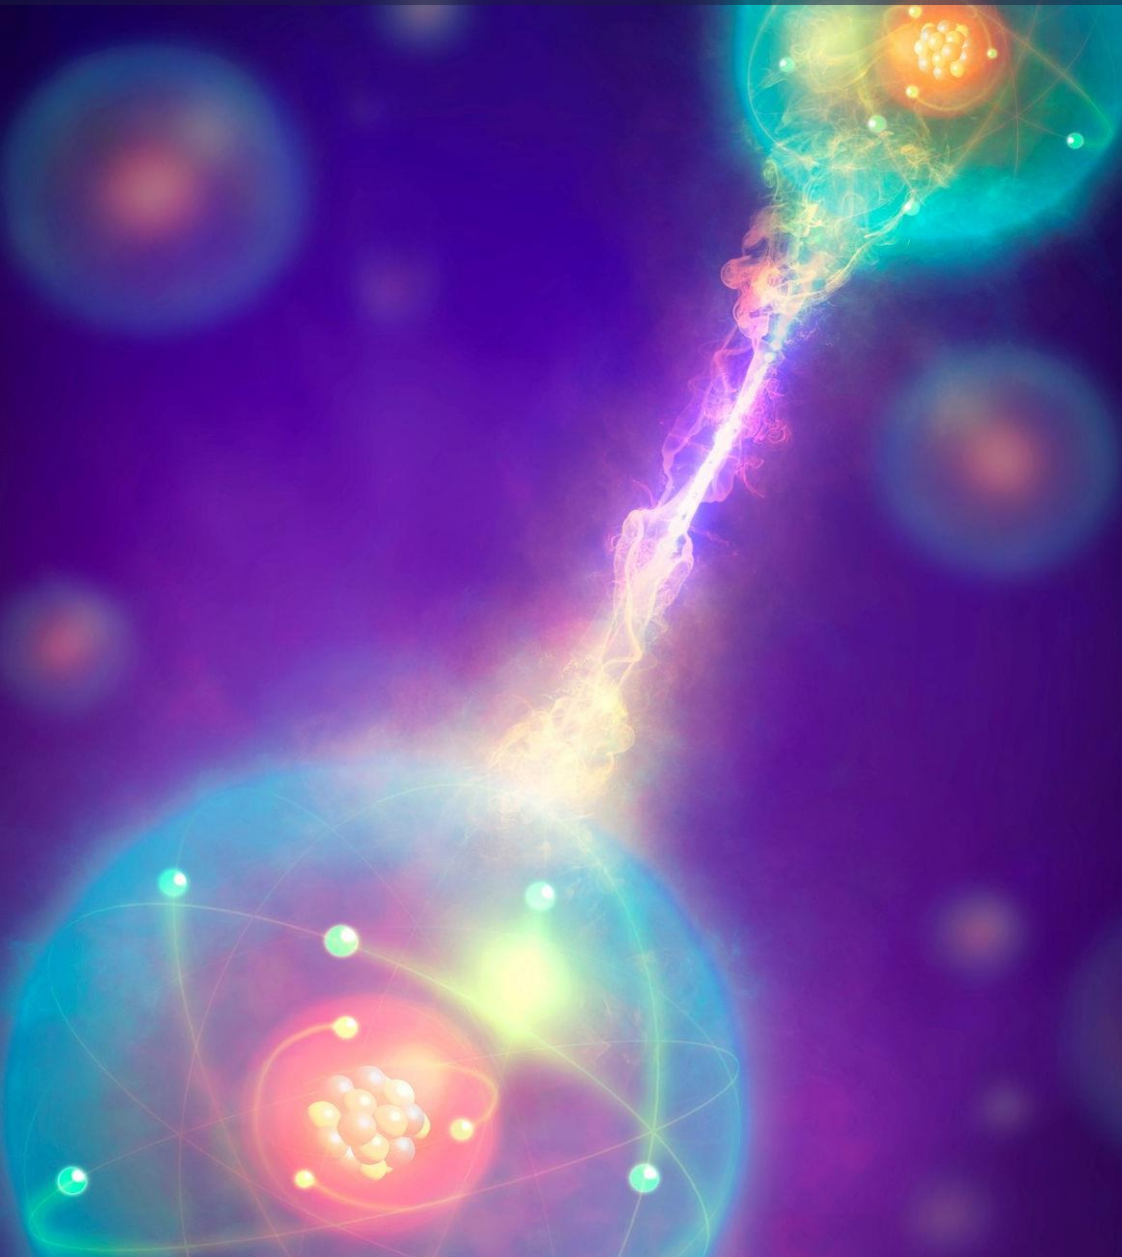

- Electricity is the manifested symbol of the Spirit.
- The single force of Intent is Coherent and Undifferentiated in its most pure form.
- The electrical induction fields represent Differentiated aspects of the Spirit made manifest.
- The Law of Economy defines that the manifested universe will strive for Balance in all processes.
- Coherent electrical phenomena demonstrate actively this process of Dynamic Balance.

The Toltec System of Knowledge ...

- There is in no real Intelligence in an AI algorithm!
- There is no In-dwelling being or Dreamer present.
- AI is not conscious, as it requires both Intelligence and Awareness combined from the Spirit to form a Consciousness.
- AI has no access to the Unknown through the inclusive instrument of the Heart-centre – and hence no true Creativity!
- AI is in fact a very fast “rational mind” algorithm capable of computing results far faster than a human counter-part, and with access to very large information databases.
- An interesting consideration would be if a Dreamer can in-carnate into a Technological Dreamed, instead of a Biological vehicle ...

QUANTUM REALM / ENTANGLEMENT

- Quantum entanglement explains how two subatomic particles can be intimately linked to each other even if separated by light-years of space.
- Despite their vast separation, a change induced in one will affect the other.

The Toltec System of Knowledge ...

- The One Life extends across all 10 dimensions of the Great manifestation.
- The One Life is also referred to as the Web of Life, a vast system of Inter-dependent relationships.
- All elements of the One Life are Inter-connected through the Jewels of Awareness or the Aetheric Spectrum.
- Inter-action between elements of the One Life follow the Flow of Power through MEST.
- In Form at the most dense physical 10th level, the Web of Life and its processes are most apparent in the Quantum realm.

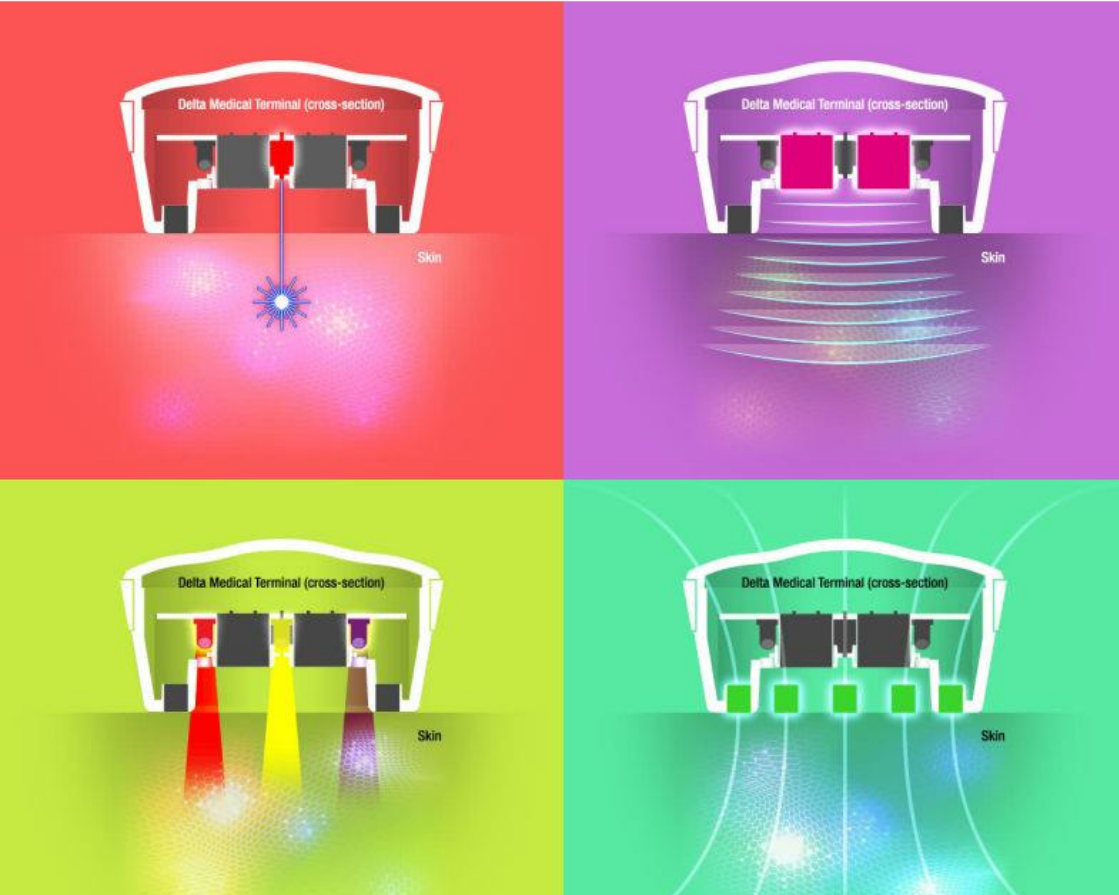

THE WHEELWORK OF NATURE

- Nicola Tesla – “... It is a mere question of time when men will succeed in attaching their machinery to the very Wheelwork of Nature.”
- The Golden Ratio / Fractal Discharge – revealing fundamental underlying processes in Nature ...

The Toltec System of Knowledge ...

- Electricity or the Spirit is ever-present in all units of the One Life across the 10 dimensions.
- The Inner-Workings of Electricity can be defined in 3 distinct levels – Electric-fire (spiritual), Solar-fire (inclusive), Fire-by-Friction (differentiated).
- The properties as we know and measure them of every-day electricity arise from Fire-by-friction.
- Using an Inclusive Intent, and apparatus that is in Synchronicity with the Wheelwork of Nature, we can reveal Solar-fire properties of electricity which reflect fundamental principles within the One Life.

- Allopathic medicine attempts to treat dis-ease by “fixing” the physical symptoms.
- A human being is approached as only a complex physical/biological/chemical machine.
- Taking a pill means you need take no responsibility for your own learning, and how you called forth the dis-ease as part of your learning ...

The Toltec System of Knowledge ...

- coMra Holistic Healing was developed through a small group of people (including Adrian Marsh) directly from the principles of the Toltec System of Knowledge.
- Produced as a healing device that coherently combines four radiances by Radiant Life Technologies, a company intelligently co-operating with the Foundation for Toltec Research.
- Utilises specific Vibrations in the Aetheric Spectrum, combined with elements of the Unknown, to encourage and support Regenerative Healing (learning) of the being.
- The healing device Coherently Combines Laser and LED light, Magnetism, and Ultrasound in the Aetheric spectrum.
